What is SeekAlpha?

A **binary prediction market** on Solana where users bet YES or NO on real-world outcomes — and earn when they're right.

Binary Markets

YES/NO bets on crypto, sports, politics, world events

⚡

3% Fee Only

Lowest in the industry. Fee only on winnings — lose nothing extra

Fully On-Chain

Transparent, verifiable, non-custodial. Your keys, your bets

What We've Built

Development Time	Total Cost
~2 Weeks	**~$30**

- → Solana smart contract (Anchor/Rust) — deployed & verified
- → Full-stack React frontend with real-time updates
- → Flash markets (5-min, 15-min, 1-hr expiry)
- → Gamification: streaks, XP, badges, leaderboard
- → Wallet Connect (Phantom, Solflare, etc.)
- → Android APK packaged via TWA
- → 5+ live markets with real SOL volume
- → Community: Discord, Twitter, growing user base

Traditional dev cost for equivalent product: **$50,000–$150,000**. AI-powered development = 99.97% cost reduction.

Our Edge

First Mover on Seeker

Zero prediction markets on the Seeker dApp Store. We're the first submission. 150K+ devices launching with no competitor.

Lowest Fees

3% on winnings only. Polymarket: 5-10%. Kalshi: 5-15%. We undercut everyone.

No KYC Required

Connect wallet, start betting. No ID upload, no waitlists, no geographic blocks.

Mobile-First

Built for Seeker's mobile form factor. TWA-packaged. Native app feel.

AI-Powered Development

Built for ~$30 in 2 weeks. Traditional cost: $50-150K. We move 100x faster.

Open Source

Fully transparent codebase. Builds trust. Enables community contributions.
